

# Training Partner Program

*The AANAC and AADNS Training Partner Program gives you the opportunity to offer our expert-developed, peer-reviewed, and always up-to-date training programs. We'll help you provide the real-world LTC education your members and clients are looking for while also helping you add to your organization's bottom line.*

## Fully flexible and completely customizable

**You choose** which of our Master Teachers will be your ally in training.

**You set** the locations and dates of your workshops.

**You save** valuable organizational resources by paying only an 18% royalty to AANAC/AADNS for content, materials, and support.

**You get** a professional look and feel. We provide you with complimentary email templates, brochures, email lists, and registration to add energy and excitement to your workshops.

**You increase** your registration potential through complimentary placements on the AANAC or AADNS websites and national workshop schedules.

## About Our Training Partners

We work closely with some of the largest healthcare organizations in long-term care. They come to us looking to build stronger training programs, to improve staff development, and to promote accurate assessment and high-quality outcomes for the residents they serve. We want to help you provide the same benefits to your members. There is no better program than ours to ensure accurate, timely, and dependable LTC information.

*“Knowing that experts created the materials lends so much more credibility to the program than a single consultant’s interpretation of this critically important tool.”*

—BECKY LABARGE, RN, RAC-MT

# There is simply no comparison to our programs!

---

## RAC-CT | 3-Day Workshop from AANAC

The Resident Assessment Coordinator—Certified (RAC-CT<sup>®</sup>) education and certification program has long set the national standard for skilled nursing facility PPS and MDS 3.0 education. The RAC-CT program ensures knowledge of clinical assessment, care planning, completion of the MDS, and the regulatory body of knowledge surrounding the RAI/MDS process.

## Medicare University | 3-Day Workshop from AANAC

It's no surprise that this education program is one of our most requested when you consider how quickly Medicare regulations can change. Promote mastering Medicare with this intensive program, which provides the knowledge needed to calculate correct reimbursement every time and avoid costly mistakes later.

---

## DNS-CT | 3-Day Workshop from AADNS

The Director of Nursing Services—Certified (DNS-CT) program provides the necessary knowledge, education, and skills to position a DNS for success. Much of what a DNS must know to be successful today is regulatory driven and not information learned in nursing school. This program fills that gap by providing complementary information on regulatory requirements specific to the SNF. By combining nursing education, clinical skills, leadership, and management skills with regulatory success, the DNS will be prepared to create systems to improve quality, communications, and resident care throughout the facility.

## QCP | 2-Day Workshop from AADNS

The QAPI Certified Professional (QCP) education and certification program offers a step-by-step guide through the five elements of an effective QAPI program, enabling DONs, administrators, and all members of the IDT to support and implement an effective QAPI program, which is so crucial to improving the quality of life and care of nursing home residents.

## BY THE NUMBERS

---

Over the last three years, the AANAC and AADNS Training Partner Program has:

---

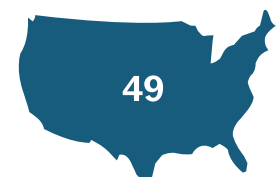

Generated an estimated \$3,000–\$250,000 in revenue for each Training Partner

Enrolled more than 7,098 students from 390 workshops hosted around the nation

Held Training Partner workshops in 49 of the 50 states

*Your organization can be a part of this tremendous growth. Call us to find out more.*
