## Session #3 Evaluation

The session you just completed is part of an in-service series on medications, the physical environment, and fall prevention funded by The SCAN Foundation.

Try your best to answer the questions – please do not ask others for help. Your individual responses will not affect your employment or in-service credit.

**Please circle either TRUE or FALSE for the following questions:**

---

1. Having several medical problems increases the risk of falls.	True	False
---	------	-------

---

2. Incontinence can make older adults more likely to fall.	True	False
--	------	-------

---

3. Older adults may have more pain and trouble sleeping if they are depressed.	True	False
--	------	-------

---

4. Delirium in older people is only caused by pain, fever, and infections.	True	False
--	------	-------

---

5. It is important to tell supervisors when residents have changes in behavior.	True	False
---	------	-------

---

6. What are 2 new things you learned during this in-service?

a.

b.

7. What did you like most about the in-service?

8. What would you change about the in-service to make it better?

**Please continue on next page →**

For each statement, place an "X" in the box that BEST describes your opinion.

**During this in-service session:**

	Agree	Not Sure	Disagree
9. I could see the video			
10. I could hear the video			
11. The information was presented too quickly			
12. The video held my attention			
13. There was enough time for discussion			
14. I learned information that will be useful to me in my work			

**Attending this in-service session helped me to better understand:**

	Agree	Not Sure	Disagree
15. How medications can affect a resident's risk of falling			
16. How the physical environment can affect a resident's risk of falling			
17. Other factors that increase a resident's risk of falling			
18. How I can help residents reduce their risk of falling			

**After attending this in-service session:**

	Agree	Not Sure	Disagree
19. I am more aware of things that might influence residents' risk for falls			
20. I have learned ways I can reduce fall risk for residents			
21. I will change how I work with residents to help reduce falls
